

**TRADITIONS™**  
classic look. modern design.

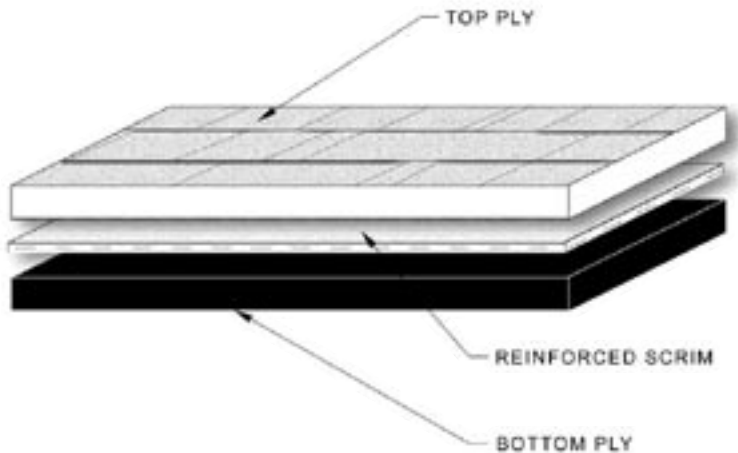

▶ The **BEST** Roof You'll Ever Own!  
**LIFETIME** Residential Warranty

**CPA Printed Single-Ply Membrane**

## The Material

IB Roof Systems, a leader & pioneer in the roofing industry, offers the ultimate roof system for low-sloped roofs. "Traditions Classic" is a single ply membrane that was designed to eliminate the problems associated with conventional asphalt shingles, but give you the look of an architecturally designed shingle roof that fits your home or building. How long is Traditions Classic designed to last? Traditions Classic carries a Lifetime Material Warranty for residential projects and up to a 15 year warranty for commercial projects. Traditions is also fade resistant and is suitable for all climates. It outperforms any shingle roof from any manufacturer.

## The Design

This is how the system is designed: Traditions Classic waterproofing system is made from a composite layer of durable PVC membrane. It is a reinforced colored single-ply with a printed architectural styled shingle pattern on top, giving you the shingle look you want but without the problems of wind driven rain, strong winds, or damage from severe UV-rays. The elements that cause the asphalt shingles to fail prematurely do not affect the waterproofing characteristics, or the performance of the Traditions Classic system.

## The Installation

The installation of Traditions Classic is simple, clean, fast and quiet. Most residential installations are completed in just one day. The membrane is mechanically fastened to the roof with screws and plates, allowing for the highest level of protection against strong coastal winds. Then the seams are hot air welded making a one-piece blanket of protection over your entire roof. All of the flashings are pre-manufactured to make your roof look good and to minimize installer error around difficult details.

## Maintenance

"A Good Roof Is One You Can Forget". This has been our motto for over 25 years. Traditions Classic is no different. Traditions Classic is virtually maintenance free and is specially designed for low-sloped roofs. The high quality membrane resists mold, mildew, algae, chemicals and ultraviolet rays, and will continue to look great for years to come.

## Advantages

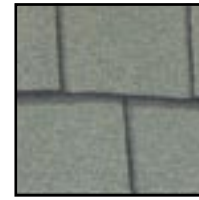

- Lifetime Warranty!
- Energy Efficient - Saves you money!
- Wind Resistant!
- Easy and inexpensive to install!
- Low Maintenance!
- UL, FM, ICC and Florida Building Commission approved!
- "Energy Star" Listed!

Mountain Spruce

## Traditions Warranty

Traditions Classic offers warranties against manufacturing defects. All the accessories, flashings, vents, membrane and the screws and plates that attach the roof, are covered under the best warranty offered in the roofing industry.

### Message from the President:

*Thank you for looking into Traditions Classic from IB Roof Systems. We have seen a lot of changes in the roofing industry over the past 25 years and have garnered a lot of knowledge and expertise. We have used this knowledge to bring you the ultimate in roofing systems ever designed and manufactured for your low pitched roof.*

*IB Roof Systems has roofs installed that are over 25 years old which are still performing great for their owners. This is because of our tireless effort to stay on the cutting edge of technology of single-ply membrane formulation & manufacturing.*

*I am confident that you will be pleased with your new roof. You have my word on it. Thank you again.*
